Battery Electrolyte Refill Reminder

Introduction

1.1 Purpose of the System

The purpose of the Battery Electrolyte Reminder System is to automate the monitoring and management of battery electrolyte maintenance. The system ensures that customers receive timely notifications for electrolyte checks, helping extend battery life, minimize failures, and improve overall service efficiency.

1.2 Scope of the Manual

This manual provides step-by-step guidance on using the Battery Electrolyte Reminder System. It covers the following areas:

Logging into the system

Role-based access (Admin/User)

Dashboard overview

Customer and battery management

Service reminder generation

Notification handling

This manual is intended for both administrators and end-users who interact with the system.

1.3 Technologies Used (with Versions)

The system is developed with the following technologies:

Frontend:

HTML5

CSS3

JavaScript (ES6)

Bootstrap 5.3.2

Backend:

PHP 7.4 / 8.0 (tested with 7.4.33)

Repository Design Pattern

Database:

MySQL 8.0

Email Notifications:

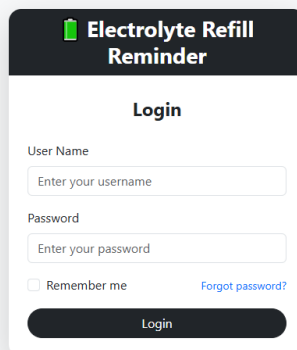

PHPMailer 6.9.1

Server Environment:

Apache 2.4.54 (via XAMPP 8.2.4 or WAMP 3.3.1)

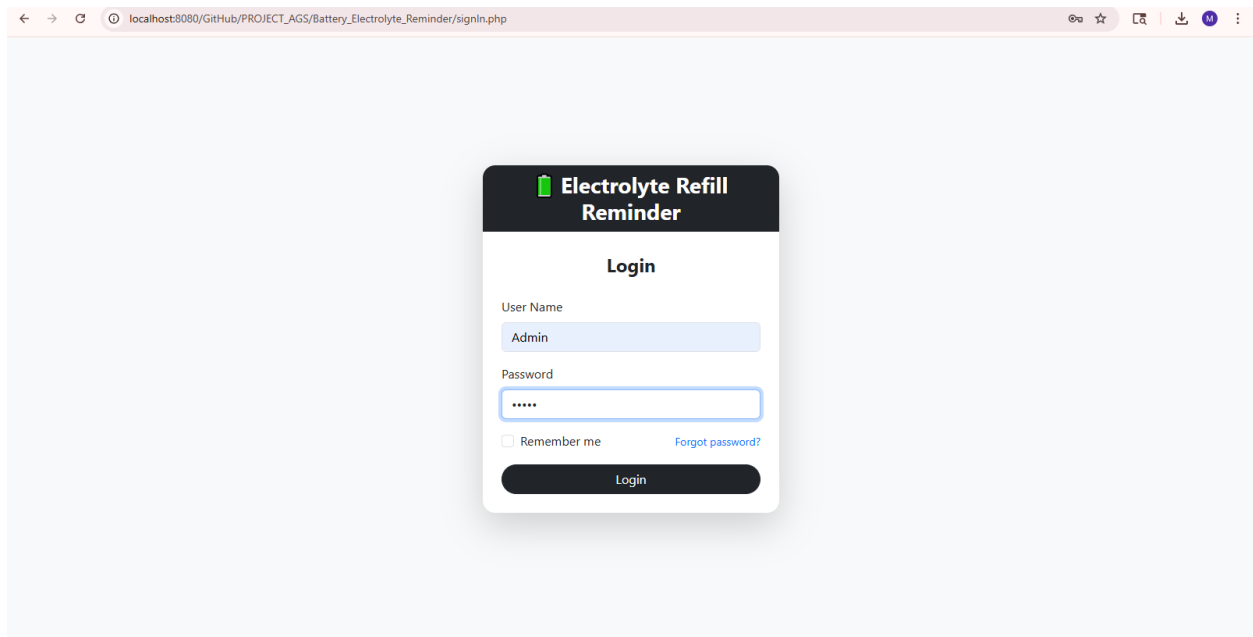

2.Login

2.1 Open the system in your browser.

The screenshot shows a mobile application interface for "Electrolyte Refill Reminder". The app has a dark header with a green battery icon and the title "Electrolyte Refill Reminder". Below the header is a white login form with the title "Login". The form contains two input fields: "User Name" with the placeholder text "Enter your username" and "Password" with the placeholder text "Enter your password". Below the password field is a checkbox labeled "Remember me" and a blue link labeled "Forgot password?". At the bottom of the form is a dark button labeled "Login".

2.2 Enter Username and Password.

6.3 View Reminders.

View reminders for specific time periods according to the warranty period of the battery as the warranty ends it will show a status of warranty expired.

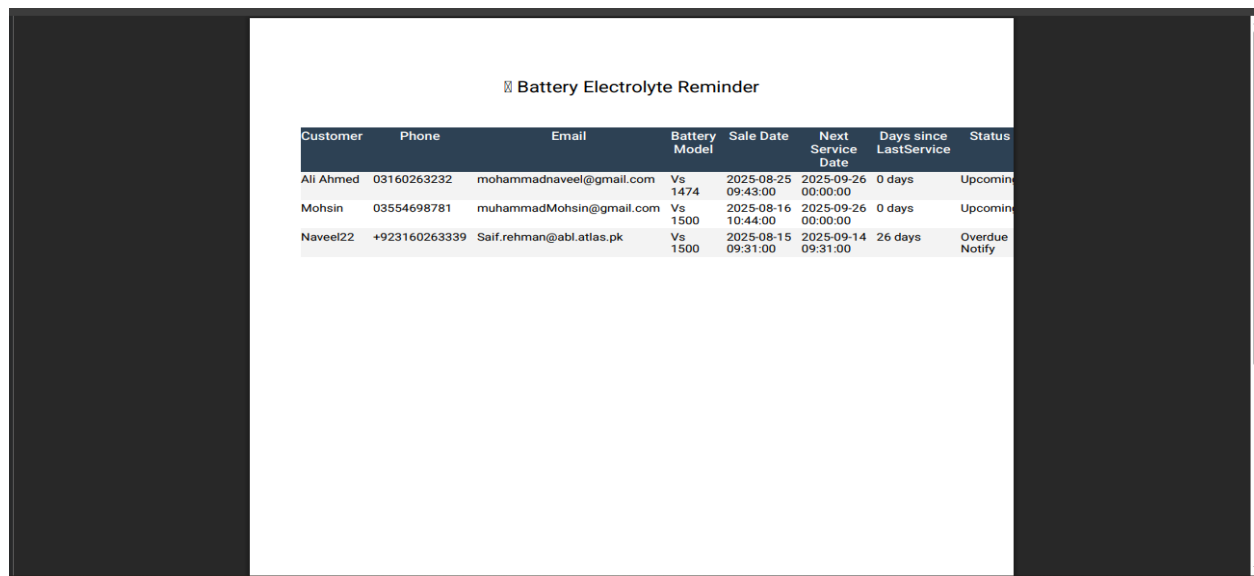

The screenshot shows the 'Electrolyte Refil Reminder' dashboard. On the left is a sidebar with 'Dashboard' (selected), 'Battery', 'Customer', and 'Email Logs'. The main area has a search bar with 'Search by Customer Name', a dropdown for 'All Batteries', and date pickers for 'mm/dd/yyyy'. Below this is a 'Battery Records' section with export buttons (Copy, CSV, Excel, PDF, Print), a 'Show 10 entries' dropdown, and a search input. The table below lists 5 records with columns: Customer, Phone, Email, Battery Model, Sale Date, Next Service Date, Days since Last Service, and Status. The status column shows 'Upcoming', 'Warranty Expired', and 'Overdue' with a 'Notify' button for the overdue entry.
